Our Processes for Managing Risk

In order to assess the risk of modern slavery, we use the following processes with our suppliers:

- When engaging with suppliers, we ask for evidence of their processes and policies, including commitments around modern slavery, human trafficking, forced labour, human rights, and whistle-blowing.
- We conduct audits before entering into a commercial relationship with any business where there is the potential for risk. These audited businesses form the basis of our preferred supplier list.
- We review the potential for risk at regular intervals, including the possibility of re-auditing a supplier or conducting spot checks.

After due consideration, we have not identified any significant risks of modern slavery, forced labour, or human trafficking in our supply chain. However, we continue to be alert to the potential for problems.

Additionally, we have taken the following steps to minimise the possibility of any problems:
